

Project Title	Funding	Institution
Development of intermodal perception of social events: Infancy to childhood	\$332,204	Florida International University
Sensory experiences in children with autism (supplement)	\$315,122	University of North Carolina at Chapel Hill
Sensory experiences in children with autism	\$486,700	University of North Carolina at Chapel Hill
Expressive crossmodal affect integration in autism	\$230,998	Oregon Health and Science University
Autistic traits: Life course & genetic structure	\$573,470	Washington University in St. Louis
Emotion-modulated psychophysiology of autism spectrum disorders	\$258,981	University of North Carolina at Chapel Hill
Evaluation of behavior problems in children with ASD	\$30,025	Center for Autism and Related Disorders (CARD)
Psychometric evaluation of the behavior problems inventory in ASD	\$25,032	Center for Autism and Related Disorders (CARD)
Social-affective bases of word learning in fragile X syndrome and autism	\$552,090	University of Wisconsin - Madison
The development of joint attention after infancy	\$307,063	Georgia State University
Systematic characterization of the immune response to gluten and casein in autism spectrum disorders	\$126,432	Weill Cornell Medical College
Visual processing and later cognitive effects in infants with fragile X syndrome	\$249,794	University of California, Davis
Early detection of autism through acoustic analysis of cry	\$257,066	Women and Infants Hospital of Rhode Island
Pre- and postnatal neurobehavioral profiles in infants at risk for autism	\$74,200	Women and Infants Hospital of Rhode Island
ACE Center: The development of the siblings of children with autism: A longitudinal study (supplement)	\$55,372	University of California, Los Angeles
ACE Center: The development of the siblings of children with autism: A longitudinal study	\$331,863	University of California, Los Angeles
Tools for automated assessment of language	\$198,687	Biospeech, Inc.
Social-emotional development of infants at risk for autism spectrum disorders	\$606,646	Vanderbilt University
Expressive and receptive prosody in autism	\$559,970	Oregon Health and Science University
Developmental processes, trajectories, and outcomes in autism	\$286,887	Yale University
Neural correlates of eye gaze processing in fragile X syndrome and autism spectrum disorders	\$78,000	University of Washington
Psychometric evaluation of the QABF in children with ASD	\$11,069	Center for Autism and Related Disorders (CARD)
Atypical pupillary light reflex in individuals with autism	\$515,419	University of Missouri
Early language development within the autism spectrum	\$505,018	University of Wisconsin - Madison
Receptive vocabulary knowledge in low-functioning autism as assessed by eye movements, pupillary dilation, and event-related potentials	\$615,000	Johns Hopkins University
Development of face perception and recognition (supplement)	\$68,253	Stanford University
Autism spectrum disorder in Down syndrome: A model of repetitive and stereotypic behavior for idiopathic ASD	\$60,000	Kennedy Krieger Institute
ACE Center: Assessment Core	\$377,572	University of Illinois at Chicago
Eyeblink in children and adolescents with autism spectrum disorders: A pilot study	\$229,500	Drexel University
Portable guidance in autism spectrum disorder	\$282,025	SymTrend, Inc.

Project Title	Funding	Institution
Multimodal analyses of face processing in autism and Down syndrome	\$155,270	University of Massachusetts Medical School
Baby Siblings Research Consortium	\$26,634	Autism Speaks (AS)
Interactions between mothers and young children with ASD: Associations with maternal and child characteristics	\$61,000	University of Haifa
Studies of social communication in speakers with autism spectrum disorder	\$286,883	Yale University
ACE Center: Auditory mechanisms of social engagement	\$275,966	Yale University
ACE Center: The Diagnostic and Assessment Core (supplement)	\$51,580	University of California, Los Angeles
ACE Center: The Diagnostic and Assessment Core	\$309,135	University of California, Los Angeles
